

PRESS RELEASE

## **Children's Cancer Hospital 57357 and Enova extend their partnership to enhance patient experiences in the 11-floor ICC building**

**Cairo, Egypt 6 September 2020** – The Children's Cancer Hospital 57357 and Enova have decided to extend their partnership. After a year of a strong fruitful cooperation, the Hospital Management has selected Enova to also operate and maintain the Intensive and Critical Care (ICC) building of Hospital 57357. This 11-floor building adds 30 more hospital beds to Enova's project scope.

The Enova teams have proudly served the Children's Cancer Hospital 57357 in Cairo, Egypt, since January 2019. From day one, they have provided great performance and creativity to optimize the indoor environmental quality to support the patients' health and well-being. During the current pandemic, this high-level commitment continued, and has been rewarded by the CCHE Management with the extension of the contract.

Last year, the Children's Cancer Hospital 57357 has earned the prestigious JCI International Accreditation, which includes stringent requirements on energy and facility management services, especially for its safety and efficiency record.

During the current pandemic, Enova has enhanced the delivery and methodologies of certain services to better support the Hospital Management in handling the challenging situation. Air Handling Unit parts and Operating Room air outlets are sanitized on a regular basis. Another focus lies on optimizing the Indoor Air Quality (IAQ) by replacing HVAC system filters and supplying the required fresh clean air to all rooms and offices.

Dr. Sherif Abouel Naga, CEO of 57357 Group Board of Directors, Children's Cancer Hospital 57357 said: "What we value especially in the Enova team is their commitment to providing added value to our facility. Another aspect that differentiates Enova in this field is their highly efficient Computer-Aided Facilities Management (CAFM) system."

"We appreciate that we can count on Enova to take care of our facility. Not only do the teams provide great performance on a daily basis, they also quickly come up with creative and innovative solutions whenever faced with a challenge. This allows us to focus mainly on our core business – helping patients on their journey to recovery," added Abouel Naga, CEO of 57357 Group Board of Directors, Children's Cancer Hospital 57357.

Every day throughout the Middle East, Enova delivers Facilities & Energy Management services to meet the challenges faced by our customers across private and public sectors. Our Facilities & Energy Management expertise allows our clients to focus on their core business and helps them to achieve their best performance and environmental targets.

"For the Healthcare sector specifically, Enova's target is to ensure reliable and efficient support services so that healthcare specialists can focus on their core business, providing care to their patients. Following our motto 'Sustaining Your Growth', we guarantee quality, expertise, value and visibility. While we generally focus on optimizing the indoor environmental quality for the comfort and well-being of the Children's Cancer Hospital 57357's occupants, in the healthcare

sector this is even more crucial as the patients' comfort can ultimately contribute to their recovery," said Renaud Capris, Chief Executive Officer, Enova.

In addition to serving several prestigious healthcare clients in the MENA region, Enova also benefits from Veolia's 70 years of experience managing hospitals. All around the world, Veolia manages facilities at more than 3,700 healthcare institutions, helping them to mitigate their risks, control their costs, and extend the lifecycle of their assets while reducing their carbon footprints through continual management of operations & maintenance, and assets.

## Ends

### About Children's Cancer Hospital 57357

Three hundred beds Childhood Cancers Hospital located in the heart of historical Cairo city. Built and maintained by donations to treat children with cancer for free. Our mission is:

- Curing: We cure kids with cancer for free – regardless of race, creed, or ability to pay with Justice in Quality.
- Caring: Through compassion for children and passion for service we provide cost effective, family centred quality care by our dedicated, motivated, well trained staff. We take care of our staff as they are the essence of our humanitarian efforts.
- Learning organization: We put knowledge into action by building our processes on evidence-based practice through continuous improvement in our learning, training and exchanging knowledge with others.
- Research: Research is our methodology. Through fostering innovation, creation and teamwork we will integrate research in all our activities.
- Challenge: Being an agile, flexible, and dynamic organization; we are change agents rising to meet all challenges with moral courage by integrating the newest and best practices in technology, science and management in all our activities.
- Community: We take care of our community by leading in cancer awareness and prevention and the protection of our environment.
